

# Installation Instructions

# Water Filter Kit

Accessory for models: GWH 715ES, GWHC 800ES, GWHC 920ES, GWHC 920 ESC  
C1210ESC, C1210ES, C1050, 940ES, 940ESO, 830ES

Spare part for models: 2400 ES, 2700 ES, Evolution 500, Integra 500

## Part no. 8 703 305 356

**Warning:** This kit must be installed by a qualified installer in accordance with these instructions and all applicable codes and requirements of the authorities having jurisdiction.

# BOSCH

## 1 Warning

**Danger:** The heater must be disconnected from the water supply.

### This water filter kit includes:

- External water filter.

## 2 Installing water filter kit

### Preparation:

- ▶ Close installer supplied water shutoff valves on hot and cold water piping to water heater.
- ▶ Release pressure relief valve to drain water from water heater.
- ▶ Disconnect cold water supply piping from connection on bottom of heater. Any residual water should drain from the heater.

### To remove front cover:

- ▶ Loosen the two Phillips head screws located on bottom rear of cover (see Fig. 1).

Fig. 1 Loosen the two screws

- ▶ Lift front cover upward and remove.

Fig. 2 Remove the front cover

### 3 Mounting instructions

- ▶ Remove the three screws from the control unit.

Fig. 3

- ▶ Put the control unit in the service position by engaging its tabs with the holes in the bottom horizontal sheet metal.

Fig. 4 Service position

- ▶ Remove the clips from the inlet fitting and bottom of the water valve. Remove inlet fitting and filter from water heater. Have a rag handy to catch any residual water that may come out. Keep water away from control unit. Replace with the new water filter kit, see Fig. 5.

Fig. 5 Replace water filter

- ▶ After replacing the water filter, reassemble all parts in reverse order and check all water connections for leakage.
